Six years on, Indian Tesla customers still waiting

"I had to chase them multiple times to get a refund because I realised that it was going nowhere. And finally, I got a refund sometime last year. Because they had no plans. So why even take bookings from a country when you don't have a plan to launch?" he asked. He added that the refund was stuck for a long, while as getting remittances from abroad is not easy in India.

Despite all that, Krishnan considers himself one of the lucky ones since a lot of people didn't even get that."I know a lot of people who also booked and haven't received a refund, I was fortunate to get my money back. But a lot of my friends who had placed bookings didn't," he added.

Requests for comments sent to Tesla were not received at the time of going to press.

But can these customers take any legal recourse? According to

National Law University Odisha, while Tesla's action constitutes a "gross criminal breach" and an "unfair trade practice", holding the company accountable is easier said than done. "In our country, regulators are intentionally protecting the culprits.Only in certain cases do

citizens seek justice through the legal process like filing a public interest litigation (PIL) or does the judiciary intervene through suo moto proceedings. As consumers or the voluntary consumer organisations lack the resources to sustain the longdrawn and cumbersome legal process, companies get away with robbing innocent and vulnerable consumers," Misra said in an email.

In 2021, the company registered its Indian arm, Tesla India Motors and Energy, with the Registrar of Companies (RoC) Bengaluru. But it is still unclear when it will actually begin selling vehicles in India as it is "still working through a lot of challenges with the government," according to Elon Musk.
